

TECHNICAL BULLETIN No.2

The CFF Technical Commission has reviewed a member request regarding the minimum age of competitors taking part in the Championships. Having taken into consideration the decision of the FIE reached at the recent Congress and considering the wide range of allowances made in various federations with respect to age restrictions, the Technical Commission has agreed that fencers will be allowed to participate in the upcoming Junior-Cadet Championships so long as they have reached the age of 13 when the event takes place.
